

Sale Name: The Rod Herrick Collection

LOT 58 - Project Caterpillar Fifteen Motor Patrol

Lot Location San Martin, CA

Description

Includes: Grader, Cat tractor PV-15 #1229, Motor Patrol Cab, and pallet of parts.

The motor patrol has two brass ID plates attached. The PV15 tractor has two ID Brass plates that are on the parts pallet.

Parts Pallet Contents: A packet with information and research information, tractor brass plates, steel plate for the cab, a packet with a Caterpillar Fifteen motor patrol parts book, equipment Echoes Publication from HCEA Issur #110 with a Caterpillar Fifteen motor patrol on the cover, 2 each T-244 pedals, rear starting crank with V-525 crank jaw, 2 each bearing assembly caps (new castings) and an extra one that was used for the casting for the Trunnion Shaft Bearing assembly, 1 each 1D481 steering wheel, 1 ea. 1D1048 step for cab, and the broken off piece that goes to the draw bar of the Caterpillar Fifteen Tractor.

Additional Information: The cab was modified to fit a wheel tractor by cutting out a wheel well on each side to accommodate a wheel tractor. The half circle cut out can be brought back to original. The back part of the frame that sits under the cab has also been modified by adding a few feet of steel frame to the original frame.

This can be torched off. The previous owner started to remove the extra part of the frame. This modification when removed would not affect the integrity of the original frame.

Quantity: 1
