

Sale Name: 2025 Garden Tractor Consignment Auction

LOT 128 - Case 195

Lot Location Morton Grove, IL

Description

12HP Kohler. Larger than a standard garden tractor and smaller than a utility tractor, this Case 195 was designed for horse properties and hobby farms. This tractor runs and drives great. The sheet metal, frame, and rims have all been recently painted

(appears amateur but clean). It has brand new rear tires, along with a new carburetor, points, condenser, plug wire, and battery. It starts up every time without fail per consignor. Its fully hydrostatic, meaning no belts to deal with. There is a small oil leak from the gear box, and the accessory lift lever is broken at the pivot point (will need a quick spot weld). The accessory hydraulic cylinder works as it should. Lights don't work, so it may need a new switch. Has a two speed Hi/Low gearbox. Located in Morton Grove, IL

Quantity: 1
