

Sale Name: 2025 Garden Tractor Consignment Auction

LOT 1026 - John Deere 318 Advertising

LAWN & GARDEN

JOHN DEERE 318

Introducing a lawn and garden tractor for the man who doesn't have everything.

This year, John Deere offers a lawn and garden tractor that leaves nothing to be desired. Introducing the John Deere 318, one of the most versatile, well-built machines in its class.

The powerful 318 features hydrostatic drive, improved brakes and axles, and a new twin-cylinder 18-hp engine that combines the cooling ability of a cast aluminum block with the durability of cast-iron cylinder liners. It has power steering and a tight 26-inch turning radius for greater maneuverability. It also has two hydraulic functions for greater convenience. And a full-pressure oil system for longer engine life.

Options include a 2,000-rpm rear PTO and a Category "0" 3-point hitch, as well as nearly 50 power-matched attachments, including tillers, snow throwers, casters and rear-mounted mowers and just about anything else you'd need, from front blade to box & hook.

Now if all this isn't enough, consider the John Deere 420. With a full 20-hp and a big extra-capacity, the new 420 is even better suited to handle the demands of tough grounds maintenance jobs.

With either the 318 or 420, you're getting a tractor that's hardworking, durable and well worth the investment. And if that isn't everything, what is?

For more information, or the name of your nearest dealer, call 800-441-9128 toll free. (800-441-6796 in Illinois) or write John Deere, Dept. 50, Moline, Illinois 61255.
